

I do not want to see K-Love converted to a LPFM station. I keep my radio dialed to K-Love for the family friendly programming, and the positive and encouraging messages that make K-love the powerful inspiration that it is. It is important to me, my family and my community that the K-love signal remains strong in our area. The airwaves are already filled with vulgar and offensive language and antics that neither I nor my family want to hear. K-love is a necessity to this community. It provides a public service that this community depends on every day. What's more, it is funded by listeners. K-love does not receive any governmental assistance or money from advertisers, and that is the way we want it to remain. It is the ONLY FM station in my area where you will never hear any inappropriate language or people-bashing. K-love supports wholesome values, and it is a station where Christians from all over the country can connect. I listen to K-love at 94.9. Please leave this station alone.
